

Grey Goes Black

Mark Lanegan

Dont you turn off my radio
please dont turn off my radio
not with the rope still swinging
while eternitys mouth is singingso insect im in amber
days go by please dont forget
uneven, so enamored
days go by remember thatgray goes blackcant you hear my radio?
dont you hear my radio?
not with the beast still sleeping
while eternitys eyes are weepingso insect im in amber
days go by please dont forget
uneven, so enamored
days go by remember thatgray goes blackinto the blood we sink and burn
gray goes black
