

# Sex Boy (Studio Recording 1977)

## Germs

I take it anywhere, any time that I can  
I am the fucking son of a superman  
I got a weapon that's as deadly as life  
It's a well trained tool, a master guyEvery day it's the same, regime  
A dozen girls are on my scene  
Say sex boy, will you come into my hand  
They're all on the floor, I better do what I can  
Take a number, it's supply and demandAnytime that I can  
I'm the fucking son of a superman  
I got a weapon that's as deadly as life  
It's a well trained tool, a master guyI put my knife into your gut  
You gotta be above when you're above  
Wanna make love  
Say it exactly, sex boy, such a sideshow poster  
After such a sweet, sweet slutAny time that I can  
I'm the fucking son of a superman  
I know what it takes  
What in the time that I can and can't doI know what it takes to satisfy you  
I know what it takes  
That's why your time is due  
In the house of fortuneI take it out and you know  
It's gonna come from behind  
Just like you and you and you and you
