Animal Magnetism

Testament

You get me loose, I want you, that's all I do
You leave me loose, I want you, that's all I do
Make love to me right now, love me till I'm downYou make me groove, I want you, that's all I do
You let me groove, I want you, that's all I do
Make love to me right now, love me till I'm downWho are you? Your magic is strange and new
Who are you? I want you, that's all I do
Make love to me right now, love me till I'm down
Make love to me right now, love me till I'm down
