

Contradictive

Tricky

Look who do I have to have
And why? A city's child
Real mode, you have to talk about it
An old pro, still we're 'bout it, 'bout it Don't frown about it
It's best you keep quiet
You could never lead a riot
Money don't make you a leader Leaders usually reads
Go read a book
He shaked then he shook
I need that crack, I need that crack You're swingin' the pipe
Do what you like, goin' doom doom
Reflect on the room, reflect on your life
Go stab yourself with a knife Reflect on your life
Time isn't real
How much time
Can you kill? Reflect on your life
Time isn't real
How much time
Can you kill? Vengeance isn't mine
We're taught to hate from time
Time isn't real
How much time can you kill? Luca Brazzi
He sleeps with the fishes
Fuck Sugar and Spice
And girls with deadly kisses Purr like a cat
Raising towers
I go over her house
For the most I got diamonds on suits
A girl's erased diamonds with new shoes
Remember Hollywood?
You could finally make deals Screamin', nigger you can get these
Stereotypical
Almost mythical
Like Mickey Mouse I'll blow down your house
Blow up your whole image
Hardcore musicians with image
Love You're silver screen
You're a hardcore lovin' machine
You play hardcore with me

And sooner or later we'll see Reflect on your life

Time isn't real

How much time

Can you kill? Reflect on your life

Time isn't real

How much time

Can you kill? Reflect on your life

Time isn't real

How much time

Can you kill?
