Fear

Switchblade Symphony

I see the children, I see all their scars
I fear the monsters that don't know who they are
When did this all start?
When did this all start?When did I fall apart?
When did I fall apart?I am too frightened to open my door
I can't stop shaking as I drop to the floorWhen did this all start?
When did I fall apart?
When did I fall apart?
When did this all start?Can you help me?
Can you hear me?
Can you hear me now?Can you hear me?
Can you help me?
My hands, unfaithful, did not protect me
Can you hear me now?What really happened during those nights?
My voice, transparent, when I need it to screamI could not move so I just turned off inside
When did I fall apart?
When did this all start?
When did this all start?
When did I fall apart?Can you hear me?
Can you help me?
Can you hear me now?
Can you hear me?
Can you help me?Can you hear me now?
Hear me now...
