Avalon

David Todd Singleton

AVALON
(temporis aeterni quoniam in saeculum saeculi: Diligam te) means: Forever and ever I will love you for all time eternal
Every once in a while there comes a love that you can call your very own Right out of the blue
And yet it happened
In Avalon one summer
I'll never forget you
I don't know what to do
(Chorus) 1â•„2
Take me back to Avalon where lovers rule the daytime And nighttime is alone time for lovers
In Avalon
(spoken french)
I'm searchin round the whole wide world to find you I'm callin' out your name
Heaven help me now
Alittle closer
I'm almost there
I'm getting closer
I've looked everywhere No one can help me now
(Chorus) full
Take me back to Avalon

Where lovers rule the daytime And nighttime is alone time For lovers in Avalon
Take me back to Avalon
And we'll dance the night away Under the stars
The moon is ours dear
It's all clear in Avalon
(spoken Latin)
(oooh, oooh, oooh, oooh) Chorus 1x and fade â€“ End.
