

# Underdogs

## Benjamin

Its Friday night forget the popular kids  
Lets all get lost somewhere  
lets fall of the grid

Just a bunch of misfits kicking in  
in the backseat of my car  
to find an adventure  
we don't need to go far  
because  
we are running in the street so  
wild and free

They say we never be heroes  
Wa-a-ait and se-e-ee  
Young and broke and on the loose  
The underdogs are coming through  
No more sittin' on the side lines  
This one is for you and me

If there's an ocean we'll jump in  
If there's a tree we'll climb  
Never listen to the voices telling us how to live this life

Dance like the rollin' waves  
And sing like the breeze  
Living in colours that they never could see

Just a bunch of dreamers  
Loving it, It ain't no mystery  
It's just another way of looking at things  
because  
we are running in the street so  
wi-i-i-ild and free-ee

They say we never be heroes  
Wa-a-ait and se-e-ee  
Young and broke and on the loose  
The underdogs are coming through  
No more sittin' on the side lines

This one is for you and me

If there's an ocean we'll jump in

If there's a tree we'll climb

Never listen to the voices telling us how to live this life
