Rocket 88

James Cotton

You women have heard of jalopies
You've heard the noise they make
Let me introduce my new Rocket 88Yeah, she's straight, just won't wait
Everybody likes my Rocket 88
Babe we'll ride in style movin' all alongA V8 motor baby, it's modern design
Black convertible top and the girls don't mind
Sportin' with me riding all around town with joyA V8 motor baby, it's modern design
Black convertible top and the girls don't mind
Sportin' with me riding all around town with joyStep in my Rocket, don't be late
'Cause we're pulling out about half past eight
Go around the corner gonna get a fillEverybody in my car's gonna take a little nip
Move on out, movin' and cruisin' along
Here we go, here we goA V8 motor baby, it's modern design
Black convertible top and the girls don't mind
Sportin' with me riding all around town with joyStep in my Rocket, don't be late
'Cause we're pulling out about half past eight
Go around the corner gonna get a fillEverybody in my car's gonna take a little nip
Move on out, movin' and cruisin' along
We gone y'all, we gone
