Bullet Proof

D-side

Do you listen to yourself?
Never live for someone else
Do you like the way you feel?
Nothin' hurts when no one's real
She wants to shake this scene
Yes, she wants to shake with me
She's not lookin' for the holes in all the lies
I wanna bulletproof your soul
Would you like to lose control?
I won't let you fall until you tell me so
What are we?
(What you wanna be)
Everything
(That you wanna be)
All I need
(Right in front of me)
I've known before
Would you come my way
Or did you burn out to the air?
Would you come my way?
Should have listened
When you called my name
Yes, she wants to tear you down
And she leaves without a sound
It's like fallin' backwards into no one's arms
You're a bullet through my soul
And I'll never let you know
I won't let you fall until you let it go
What are we?
(What you wanna be)
Everything
(That you wanna be)
All I need
(Right in front of me)
I've known before
Would you come my way
Or did you burn out to the air?
Would you come my way?
Should have listened

When you called my name
Would you come my way
Or did you burn out to the air?
Would you come my way?
Should have listened
When you called my name
Should have listened
When you called my name
Should have listened
When you called my name
Should have listened
When you called my name
