We Go On

Billy Gilman

Deep in the valley of your soul
Tired of worries you can't control
With so many mountains left to climb
Unanswered questions left to findWe go on, we go on
It's the first lesson learned when you're born
On the wings of Angels, we ride out the storm
You and me, we go onPull a stranger from the water
And in that moment he's your brother
There's a gift when you receive him
Love is the greatest reasonWe go on, we go on
It's the first lesson learned when you're born
On the wings of angels, we ride out the storm
You and me, we go onFaith happens when you can't see
Against all odds you believeWe go on, we go on
It's the first lesson learned when you're born
On the wings of Angels, we ride out the storm
You and me, we go on, we go on
