Too Late For Gods

Afi

Come with us.
To the water as we celebrate poolside
Silver line, sons and daughters
Take the big dive
Celebrate before rejection
Before this pool shows our reflection
Too well
Diamond impressions
Lay where we fell
Without discretion
All the questions they?ll ask
Were we raised this way?
Such a promising past
Mayday
(Chorus)
Go down in glory
What did I tell you, I promised they?d take me too
Down with the heroes before me

What did I tell you, I promised I?d give you a story
Tell me a story
Now look down
From these great heights
Soaring pristine and private
Through the storm
We will cut right
Cross the skyline
Celebrate, come join with this storm
And radiate
We international waves
With arms we?ve stolen
Flee but can?t key
A thing that is golden
They say nothing was found
When we hit the ground
Did I forget to say
Mayday
