Class A

Demrick

Be yourself, if you wanna know your name
Be your friends and if you ever want to pay
All of this place is all about to fall
Right down on you if you change what you say
And if you wanna hide yourself
Be the one, it's hard to know how far you go
All of this place is all about to fall
Right down on you, if you change what you say
And if you wanna hide yourself
Be the one, it's hard to know how far you go
All of this place is all about to fall
Right down on you if you change what you say
And you know what you know
And you see what you bend
Can't believe it's insane
Come on be what you mean
