

# Goodnight & Goodbye

## Casey McQuillen

You're waiting for me in the snow  
But I don't want to go  
â€™Cause words we say cannot be undone

You had me waiting in the rain  
But that's gonna have to change  
â€™Cause I learned you weren't the one

And now I'm walking in the dark  
And I'm about to break my heart

He said baby donâ€™t cry  
I said why would I cry?  
It's not like I'm standing here saying goodbye  
To the boy that I loved for too little time  
You're right, there's no reason to cry

He said baby don't leave  
I said why can't you see  
I can't be where you stopped loving me  
The silence was filled with so much sound  
That's when the snow fell down  
I said I'll see you around

You said a lot of words tonight  
Try to make us be alright  
But your words had nothing to say

What you said loud and clear  
I don't belong here  
Good for you, I'm on my way

And now I'm walking in the dark  
And I'm about to break my heart

He said baby donâ€™t cry  
I said why would I cry?  
It's not like I'm standing here saying goodbye  
To the boy that I loved for too little time

You're right, there's no reason to cry

He said baby don't leave  
I said why can't you see  
I can't be where you stopped loving me  
The silence was filled with so much sound  
That's when the snow fell down  
I said I'll see you around

He said baby don't leave  
I said please let me be  
This is not how I want for you to see me  
With tears falling down and my heart open wide  
That part of me I meant to hide

I meant to be strong  
And I meant to be tough  
I meant to say sorry just isn't enough  
You were supposed to be safe  
You were supposed to be mine  
But you're the one with goodbye  
I'm the one with goodnight
