

I'll Be the One

Badfinger

Where did you go when you were needed?
Was it someplace I know where they care?
Cries in the rain, I'll learn to get by without you
For the pain in my heart I'll be the one, we'll be together
I'll be the one, forever and ever Look at me now, am I the loser?
If you can't tell me how, tell me why
But just the same, I'll learn to get by without you
For the pain in my heart I'll be the one, we'll be together
I'll be the one, forever and ever and ever
