

# I'll Be There

## Faber Drive

If you're lost and you need to find  
Some escape or some peace of mind  
Call my name when you need a friend  
I'll be there, I'll be there

If you're dreams are drenched in sweat  
You can't sleep, there's too much in your head  
Call my name any time of day  
I'll be there, I'll be there

When you can't carry on, when the road's way too long  
Know that you're not alone, I can carry you home  
If you hold on tonight I'll be there  
If you give 'til you've got nothing left  
Wanted more but you end up with less  
All your friends have turned away  
But I'll be there, I'll be there

When you can't carry on, when the road's way too long  
Know that you're not alone, I can carry you home  
If you hold on tonight, if you hold on tonight  
The weight of the world is too much to take  
Pulling you down like a tidal wave  
I can hold you, I will hold you here and now  
If you're lost and you need to find  
Some escape or some peace in mind, yeah

When you can't carry on, when the road's way too long  
Know that you're not alone, I can carry you home  
If you hold on tonight

When you can't carry on, when the road's way too long  
Know that you're not alone, I can carry you home  
If you hold on tonight I'll be there

When the world seems wrong, when you've come undone  
No, you're not alone, I'll be there for you  
When the world seems wrong, when you've come undone  
No, you're not alone, you know I'll be there
