

# I Get My Beat

**Richard Ashcroft**

I get my beat with you  
When we see things through  
And I think about you all the time Who the winners in the game were playing  
I don't even think they know  
Who the losers and how much their paying  
I don't even think they know I need to hear the truth  
From the soul of you  
Chase the moments we can share Who the winners in the game were playing  
I don't even think they know  
Who the losers and how much their paying  
I don't even think they know They got time  
They got life  
Take and take your time I got to hear the sound of the morning song  
It's the right place with your head  
I'm blowing smoke and I'll feel so damn fine  
I know you care Who the winners in the game were playing  
I don't even think they know  
Who the losers and how much their paying  
I don't even think they know
