

# Lost At Home

## More Than a Thousand

I know exactly what you are  
Eyes so cold they cut through the bone  
No emotion, explosion, you're death  
I know exactly what you want Send my heart away anywhere but here  
Fuck this shit you don't understand  
Get it?! We're not the same  
Devil. Arms of the dead After the wave here comes the shark  
You will never get me out alive  
But how do I know if I'm still awake?  
I said I'd be here forever  
We were trapped in this together  
The wolves are at your gate  
Send my heart away anywhere but here Is this the place you call home?  
Have I been sleeping all this long?  
My blood runs cold, my heart is gone  
Get me out of your casket I know exactly what you are  
No emotion, explosion, you're death  
For once in my life let me live After the wave here comes the shark  
You will never get me out alive  
But how do I know if I'm still awake?  
I said I'd be here forever  
We were trapped in this together  
The wolves are at your gate  
Send my heart away anywhere but here Let me sail away into the arms of the dead  
For once let me breathe  
Let me sail away into the arms of the dead  
For once let me live After the wave here comes the shark  
You will never get me out alive  
But how do I know if I'm still awake?  
I said I'd be here forever  
We were trapped in this together  
The wolves are at your gate  
Send my heart away anywhere but here No glory. No second chance  
You can search until the end of time  
I'm sorry no second chance
