Taking Back Sunday

"We've got to get better," I said, "It's all in your head."
We could live through these letters or forget it all together
See the months they don't matter it's the days I can't take
When the hours move to minutes and I'm seconds away Just ask the question come untie the knot
Say you won't care, say you won't care
Retrace the steps as if we forgot
Say you won't care, say you won't care
Try to avoid it but there's not a doubt
And there's one thing I can do nothing about When all that we need is just a reaction
It's too much to ask for when there's no attraction anymore
If chasing our dreams is just a distraction
I want to remember when I know that I can't go back Just ask the question come untie the knot
Say you won't care, say you won't care
Retrace the steps as if we forgot
Say you won't care, say you won't care
Try to avoid it (try to avoid it) but there's not a doubt
There's one thing I can do nothing
There's one thing I can do nothing
There's one thing I can do nothing about. Just ask the question (just ask the question) come untie the knot
Say you won't care, say you won't care
Retrace the steps (retrace the steps) as if we forgot
Say you won't care, say you won't care
Try to avoid it (try to avoid it) but there's not a doubt
And there's one thing I can do nothing
There's one thing I can do nothing
There's one thing I can do nothing about.
