Clown

6CycleMind

Maybe you see me Im always happy
But in my back, Im a lonely clown
Every time I wake up it seems
Your face I want to see in smileTry to hold me one more time
Bring me back from where I start
Chances are not yet fading but
The clown starts to cryHard to say that I really need you
I can't pretend that I'm
Still inlove with youDon't get me wrong
'Coz I know you still hear me
Don't get me wrong
'Coz I know you still feel meHold me tight one more tight
Bring me back from where I start
Chances are not yet fading but
The clown starts to cryMaybe you see me I'm always happy
But in my back I'm a lonely clown
