

# Don't Go Near The Water

Sammy Kershaw

Your mama used to worry about that big muddy river  
Honey do you remember?  
You let the screen door slam when you stepped off the front porch  
Hear ya mama calling don't be late  
And I'd hear ya daddy holler son she's my only daughter  
You stick your nose in the honeysuckle down by the gate  
I can still hear ya mama calling don't go near the water  
We fell right in way over our heads  
But we didn't go near the water  
A love ran deep so young and sweet  
And the nights got hotter and hotter  
We're sure enough gettin' our feet wet mama  
But we didn't go near the water  
We hear a rockin' chair squeekin' as we sneaked up the back stairs  
Mama waitin like a grizzly bear  
We had to get the honeysuckle out of your hair  
But in the morning light you'd look her right in the eye  
You wouldn't lie  
We didn't go near the water  
We fell right in way over our heads  
But we didn't go near the water  
A love ran deep so young and sweet  
And the nights got hotter and hotter  
We're sure enough gettin' our feet wet mama  
But we didn't go near the water  
Your mama used to worry about that big muddy river  
She should've worried about me  
Cause we were sure enough gettin' our feet wet mama  
But we didn't go near the water  
We didn't go near the water  
Didn't go near the water  
Yeah
