Over You

We The Kings

There's so much I wanna say
Something you won't understand
I'm already gone today
Off to be a better man
And it's true
That I'm over you
I know it took a little while
I know I cried a couple tears
Every step was like a mile
Every day a million years
And it's true
I'm finally over you
And I'm on my way
[Here's to the nights I cared
To the night you left
I'll pour you a drink
And toast to the end
Here's to the scene of the crime
Left me here to die
I'm finally over you
I'm alive]

When it rains it really pours
Now the sun is kicking in
You used to say I made you sick
Now go and take your medicine
'Cause it's true
That I'm over you
And I'm on my way
[Chours]'Cause these bitter days are only a memory
Better days are just days away
Cut both ways 'cause you're covered in bandaids
Now
[Chours]Here's the scene of the crime
Here's the last goodbye
I'm finally over you
[Chours]I'm alive (times 4)
I'm finaly over you
I'm alive.
