Take My Pain Away (Acoustic)

Anarbor

You got a feeling
That it keeps you up at night
I know that I'm leaving
Everything will be all rightAnd even when I'm miles awayYou got me high like cocaine
We're moving faster than a freeway
And I can feel you in my veins
Baby take my pain away, take my pain awayHit me like a kick drum
Love me like I'm still young
We're older but we're still the same
Baby take my pain away, take my pain awaySo, this ain't easy
Ill make it worth it if you see it through
Days when I'm speaking
Probably think I'm over youAnd even when i'm miles awayYou got me high like cocaine
Were moving faster than a freeway
And I can feel you in my veins
Baby take my pain away, take my pain awayHit me like a kick drum
Love me like I'm still young
We're older but we're still the same
Baby take my pain away
Take my pain awayThinking about you
Even without you
Wishing and praying, hoping that is sayingYou got me high like cocaine
Were moving faster than a freeway
And I can feel you in my veins
Baby take my pain away, take my pain awayYou got me high like cocaine
Were moving faster than a freeway
And I can feel you in my veins
Baby take my pain away, take my pain awayHit me like a kick drum
Love me like I'm still young
We're older but we're still the same
Baby take my pain away
