

Amnesia (Dubstep Club Mix) [feat. April Raquel]

Dario Synth

TALK:

I have amnesia,
can someone help me to remember?

I have amnesia,
the party was over last night.VERSE 1:

(Amnesia)

(Amnesia)

I wake up in the morning and I don't know
where I am, I drink so much,
I look around and I see
a stranger next to me.I'm tryin to find a way to remember
but it seems complicated, because
my mind has gone out of control
and I need something to believe.CHOIR:

I have amnesia,
can someone help me to remember?

I have amnesia,
the party was over last night.VERSE 2:

(Amnesia)

Baby give me a reason, I gotta know
what happened last night, I feel so close,
I remember the flashin' light
which made me move to the beat.I'm tryin to understand who I am and why
I slept here last night? 'cause
I need to discover the truth
and what I did wrong.CHOIR:

I have amnesia,
can someone help me to remember?

I have amnesia,
the party was over last night.

I have amnesia,
can someone help me to remember?

I have amnesia,
the party was over last night,
was over last night, last night,

I feel so tired,
I need more time,
to remember last night,
last night, last night,

I feel so tired,
I need more time,
to remember last night.BRIDGE:
I know you want me,
don't lie to me,
I'm living in your dreams.
Baby don't hurt me,
now I remember all
and I would only run away.When music takes over, over
move your body on the dancefloor,
I can feel it coming over me,
I wouldn't stop if I could.CHOIR:
I have amnesia,
can someone help me to remember?
I have amnesia,
the party was over last night.
I have amnesia,
can someone help me to remember?
I have amnesia,
the party was over last night.
(Amnesia)
