

# Attention

## Ringo Starr

Everybody needs attention  
Everybody wants to smile  
Everybody needs a mention  
Attention, attention for a while Come on, baby, give it all you've got  
Get into the power of the plot  
You know we'll only get it if we try  
Give me your attention for a while Feel it, feel it when you tell me  
You've got time to give me, time can't run away  
See it, see it in the children  
People of tomorrow, living for today Your love is fine  
Your love can be mine Come on, baby, give it all you've got  
Get into the power of the plot  
You know we'll only get it if we try  
Give it your attention for a while Everybody needs attention  
(Everybody needs attention)  
Everybody wants to smile  
(Everybody wants to smile) Everybody needs a mention  
(Everybody needs a mention)  
Attention  
(Attention)  
Attention  
(Attention)  
For a while Give me your attention for a while Doo doo doo doo  
Doo doo doo doo  
Doo doo doo doo
