

Homeless

Pennywise

Advisory - the following lyrics contain explicit language:

Look at all these people lying around
Look at all these people being scraped right off the ground
Because of too many broken homes too many cardboard box
Too many people who just cant survive hare losses well AmericansDont belong in tins lets learn to help
ourselves
Before we help the foreign
Wounded decay shout out dismay can you hear their voices
Yelling out maydayWe're sending money overseas
Look out your window our nations the one that needs
Because theres not enough income theres too much poverty
Can't you live a life go out to see well leave it alone hope it goes awayIts hard to ignore life when you live it
everyday
Id like to see, Id like to say
Id like to hear that help is on the wayHere today where tomorrow
Death in the shadows affect us all
Here today where tomorrow
Death in the shadows affect us allToo many bodies lie in the street
Too many hungry mouths that have the right to feed
Too many bodies lie in the street
Too many hungry mouths that have the right to feedOkay that's it
Look at all these people lying around
Look at all these people being scraped right off the ground
Because of too many broken homes too many cardboard box
Too many people who just cant survive hare losses well AmericansWell leave it alone hope it goes away
Its hard to ignore life when you live it everyday
Id like to see, Id like to say
Id like to hear, that help is on the wayHere today where tomorrow
Death in the shadows affect us all
Here today where tomorrow
Death in the shadows affect us all
