## Project 86

Obsolete, obsolete, we're so obsoleteSleep soundly in silence knowing that we
Will never return to what we once were
What was now is a distant memoryWe took to heart everything that you saidThis is the sound that drives you to deny
These are the words that remind you we're alive
This is the voice that haunts you in your sleep
Outdated forgotten were yesterday's obsoleteSleep softly knowing that we are through
The spotlight has turned it's favor from us
And now it's upon youNow I agree, we're better off deadThis is the sound that drives you to deny
These are the words that remind you we're alive
This is the voice that haunts you in your sleep
Outdated forgotten were yesterday's obsoleteYesterday's model and oh so expendable
Is it comforting to know we're so, temporary?
Yesterday's model and oh so expendable
Is it comforting to know we're so temporary? TemporaryYesterday's model and oh so expendable
Yesterday, yesterday
Obsolete obsolete we're so obsolete
Temporary, temporaryYesterday's model and oh so expendable
Yesterday, yesterday
Obsolete obsolete we're so obsolete
Temporary, temporaryThis is the sound this is the voice
You were so right to write me offThis is the sound that drives you to deny
These are the words that remind you we're alive
This is the voice that haunts you in your sleep
Outdated forgotten were yesterday's obsoleteThis is the sound that drives you to deny
These are the words that remind you we're alive
This is the voice that haunts you in your sleep
Outdated forgotten were yesterday's obsoleteWhen you're just a memory I'll be there to remind you
Of what you said as ash to ash so you will return
You once made such noise, but now so obsoleteNow so, obsolete
Now so, obsolete
Now so, obsolete
Now so, obsolete
