How Would I Know

Ari Hest

I was sure
That you were what Id waited for
you were the ultimate goal
I wouldnt be hungry anymore
Had a toast
With everyone to recognize
Just how far I had come
Thats why its such a surpriseI wake up restless in the night
Cant fall back asleep
Something isnt right
And then it hits
How would I know if this was it?
How would I know for sure
Whats been for sure in my world?Caught a show
Down at the Rockwood last night
Came away humming a tune
Sat down at home, began to writeAnd like a habit
I never was able to kick
You put me in a trance
Everything suddenly clickedIm with you for better or for worse
Dont know if youre a gift
Or if youre a curseAfter all
How would I know if this was it?
How would I know for sure?
Whats been for sure in my world?(Couldve been everything)
Now I could be wrong
That could have been all
That couldve been all therell be
But if I dont play along
It wont ever be clear to me
No it wont ever be clear to meHow would I know if this was it
How would I know for sure
How would I know if this was it
How would I know for sure
How would I know if this was it
How would I know for sure
What's been for sure
I know
I know

I know
I know
