Know How

Nik Kershaw

got a badge upon my chest
i'm a cut above the rest
so ican tell you what to dogot my regimental hat
got my "by the good book" chat
so ican tell you where to goi've got a job to do and i'm telling you
i intend to do it well
it's easy when you know howgot my smart uniform
and my duty to perform
so i
don't care you who you arei'm the only one who can spoil your fun
with one shake of the headit's easy when youknow how, know way
know where and know today
know mercy, know time
know reason, know rhyme
know howi can tell you i'm the law
with my medals from the war
so don't tell me what to do
with my narrow point of viewthough i know you're probably right, i guess
it's still not easy saying yes
it's easy when you know how, know way
know where and know today
know mercy, know time
know reason, know rhymeknow how
