Revitalized

The Methadones

You could understand that we didn't see eye to eye
But when you left me
It really hit me
You're gone
I'm revitalizedYou knew how to push all my buttons
Shrink me down to your size
I know I'd rather be lonely than have you
I'm revitalizedI feel better than I have in quite some time
I don't feel bitter anymore and there's no more lies
I'm revitalized
