

# Beloved

## Tracy Dawn

I'm on a journey  
I'm on a hunt for more of you  
Though I'm not worthy  
of all the tender things you do

Still I am thirsting  
for a whisper, for a touch  
I will rise early for your love

Words get lost in  
verses I sing  
when I look and  
see you smiling

Rain down you heavens  
Let the skies pour out righteousness  
Come my beloved

Open the earth and let all the saints see  
We're with the savior ???  
???? we long to be with thee  
Come for us beloved

I think so clearly  
what a faithful friend you are  
a sweet mystery  
and the treasure of my heart

You know humility  
I am a lover of the truth  
I come willingly to you

I ???  
your devine  
something cure for  
all mankind

rain down you heavens  
let the skies pour out righteousness

come my beloved

Open the earth and let all the saints see  
We are with the savior  
welcome for ??  
come for us beloved
