

# Love

## Rome Fortune

Love, love, love  
All this Love  
Love, love, love  
Showing you love  
Love, love, love, Baby that's love  
Love, love, Love, I'm showing you love  
I just imagined like really imagined if there could be a greater gift  
I'm like actually, it's not actually a, damn thing I'd ever miss  
Like your first steps or your birthday, actually I missed them both  
But you gotta understand, you must understand, my back was against the ropes  
Scapping dollars up on the road, sending money home for your school  
Paying for flights, hotels each night to provide for you  
This rapping shit tough aside  
I ain't rich and that's on God  
On my home page of my phone is you both, just to keep it going hard!  
Because I wanna end it all sometimes  
My career and even ending my life  
Yeah I wanna end it all sometimes  
I could never when I look in your eyes and see yours  
x2 Lets fly awayyyy  
Lets fly awayyyy  
Lets fly awayyyy  
x2 I'm thankful what you do to me  
I'm thankful, I'm thankful what you do to me  
I'm thankful what you do to me  
I'm thankful, I'm thankful what you do to me  
That's love love love love love love  
That's Loveeeee!
