

Love Me Forever

Elisa

Uh, boy
What do you think?
I do, baby
Your voice
It doesn't feel so near lately But love me, love me, love me forever
Love me, love me, love me forever
Love me, love me, it all gets easier No, I won't wait for you to find time for me, baby
I'm gonna make you stay just one more day
So don't you dare
Try
Just pretend they Love me, love me, love me forever
Love me, love me, love me forever
Love me, do you feel any better?
Love me love me, it all gets easier
Yeah I crave for your kiss, kiss, kiss
But you never see beyond my need
(Baby, I won't beg) And I won't beg
Called out your name
That's one thing you better understand (you better) Love me, love me, love me forever
Love me, love me, love me forever
Love me, love me, let's get together
Love me, love me, it all gets easier, baby It all gets easier
Baby, won't you love me forever?
Love me forever
Don't you feel any better?
Love me, love me forever
Love me, love me forever
Do you feel any better?
Love me, love me forever
Love me, love me forever
Love me, let's get together
Love me, love me, love me, love me, love me
Love me, love me, love me, love me, love me
Love me, love me
Forever
Me, yeah
Won't you love me?
Baby won't you love me?

Baby, won't you love me, love me, love me forever
