

Breakdown Intermission

[Robyn](#)

Hey, my friend, I thought you knew it's all an illusion
And nobody knows what to do, what's your point of view?
It goes on and on and on and on and on Breakdown
If you wanna dance, better take your chance
Don't be scared 'cause I'ma show you how
We can learn to boogie I'ma break it down, turn this world around
If you wanna follow, do it now
Gotta learn to boogie
Do it now All the things they're selling you
Makes you think you need them
Pretty, pretty girls with witty, witty words
I don't know what you think you heard And nobody knows what to do, what's your point of view?
It goes on and on and on and on and on Breakdown
If you wanna dance, better take your chance
Don't be scared 'cause I'ma show you how
We can learn to boogie I'ma break it down, turn this world around
If you wanna follow, do it now
Gotta learn to boogie
Do it now Somebody help me, gotta learn to boogie
Gotta learn to boogie, gotta learn to boogie
Gotta learn to boogie, gotta learn to boogie
