# Best Friends

## The Perishers

I remember your mouth
What it said, how it kissed me
And how it whispered in,
Not like anyone elseAnd I remember your feet
I saw them dance to the new beat
And when I asked you to,
They walked a mile in my shoesWe were best friends, more than best friends
Let's do it all againI remember your hands
I heard them clap for my encore
I felt them pull me back
As I tried to break looseAnd I remember your eyes
How they saw right through me
And how that made me feel
So sick and bored with myselfWe were best friends, more than best friends
Let's do it all againWe were best friends, more than best friends
Let's do it all againNow I know that I loved her
And I wish I had told her
But I was too slow it was already over
Yeah, I was too slow it was already overLet's do it all again
Let's do it all again
Let's do it all again
