

# Je t'aime encore

Brigitte Fontaine

Call the village band out, bid me goodbye  
Everybody stand outside and cry  
Never thought so many, thought me so dear  
I'd be happy any place but here  
One way ticket take me anywhere  
North bound, south bound, I don't even care  
I know the grass is greener there  
People in the city, leave you alone  
Everyday is pretty much your own  
One among the many, year after year  
I'd be happy any place but here  
One way ticket take me anywhere  
North bound, south bound, I don't even care  
I know the grass is greener there  
Look over the passing train  
And there I am  
No matter where I am  
I'm passing through  
One way ticket take me anywhere  
North bound, south bound, I don't even care  
I know the grass is greener there  
One way ticket take me anywhere  
One way ticket take me anywhere
