

Constant Waterfall

Kultiration

As yourself I greet you this time
Available in the heart of every man
It's the golden thread
Picking it up again
Unwinding
The big picture painted Of a constant waterfall
Constant waterfall
Constant waterfall
This world is a constant waterfall
Bloodline of a universe is in motion
I'm being pulled down under the stream
Droplets make their way back into the ocean
Nothing is like what it seems to be Constant waterfall
Constant waterfall
This world is a constant waterfall
Constant waterfall Finally I belong
Resting comfortably in the vision of the one
Greeting whatever comes along
I'll be here, singing the same song
