

Judgement Day

Brand New Sin

You go on living day by day with blood on your hands
Those lies they hypnotize
But you ruined them anyway
And soon you'll come to find you can't turn water into wine
And then we all will see you and all your misery You better save yourself boy
Before it gets to late
Cause all your pain and suffering will not wait
But what I got you could never take away
Welcome to hell
THIS IS YOUR JUDGEMENT DAY Don't ask for forgiveness
watch for your soul
you know the answer for
why you're so cold
Don't try to run away
you are here and you must stay
you learn to cry these tears
for one hundred thousand years You better save yourself boy
Before it gets to late
Cause all your pain and suffering will not wait
But what I got you could never take away
Welcome to hell
THIS IS YOUR JUDGEMENT DAY
