Not That Social

The Von Bondies

I'm the centre of whats tagging you near
But if you want it you better come quickly
You're not that social just a good drinker
I know a way to make things better
But do I mean it
Or am I just mean?
You're not that social just a good drinker
Oh oh oh oh
Oh oh oh oh
Theres no limits to the problems you bring
You need help I need the chance
Its on its way and
You're not that social just a good drinker
I've been hinting for a long long time
You'll never make it this is the end
You're not that social just a good drinker

Oh oh oh oh
Oh oh oh oh
Breathe in breathe out
I know you're drowning
Breathe in breathe in
I know you're drowning
You're not that social just a good drinker
Breathe in breathe out
You're not that social just a good drinker
Breathe in breathe out I know you're drowning
Breathe in breathe out I know you're drowning
Breathe in breathe in
Breathe in breathe in
