

# Talk In Grey

[Paul Van Dyk](#)

Missing the train, moving the days around  
These moments in time  
Always the change of hands that takes you out When everything is sinking to the top  
And something's got you looking till you see you're blind  
You know that I would try my best to say If I could talk in grey  
I wouldn't see your face at all  
If I could talk in grey If I could talk in grey  
I wouldn't see your face at all  
If I could talk in grey Live in the night, mumble the days aloud  
A questions of rights  
Things that we left around until they crawl inside And make you wanna fall across the lines  
When everything is sounding like a battle cry  
No promises are good enough to take If I could talk in grey  
I wouldn't see your face at all  
If I could talk in grey If I could talk in grey  
I wouldn't see your face at all  
If I could talk in grey If I could talk in grey  
I wouldn't see your face at all  
If I could talk in grey
