# Spaceship

## Daughtry

Hood of my car
Radio's just loud enough so I can hear Levon
Where you are is anybody's guess but mine
Just a song that we grew up on
Constellations seem so out of line
Wishing we could make it this timeIf somebody's out there
Show me that you care
Give me a sign that comes out of nowhere
Like a shooting star
Or maybe life on Mars
Something inside tells me we can't be too far
Cause I can see me on a spaceship leaving
Here only to find that we're not the only ones
We're not the only onesCall me a fool
Day dreaming in the dark, and
Throwing bottles at the moon
Why you're gone is nobody's fault but mine
Another song that we grew up on
Can anybody tell me where I can find
That girl I can't get out of my mindIf somebody's out there
Show me that you care
Give me a sign that comes out of nowhere
Like a shooting star
Or maybe life on Mars
Something inside tells me we can't be too far
Cause I can see me on a spaceship leaving
Here only to find that we're not the only onesLookin' for love
Lookin' for something more when it's not enough
Gotta stay above the clouds
Cause without feet both on the ground
We'll never loveYeah, cause I can see me on a spaceship leaving
Here only to find that we're not the only...
If somebody's out there
Show me that you care
Give me a sign that comes out of no where
Like a shooting star
Or maybe life on Mars
Something inside tells me we can't be too farI'm taking off on
A spaceship leaving

Come see for yourself if you don't believe me
Together we will find that
We're not the only ones
We're not the only ones
