

# Late At Night (feat. MNEK)

## Pell

[Hook]

Peeping your aura  
And baby you know that it's golden  
I just want to see you shine  
Want to see you shine  
Come by my spot after dark  
And just live in the moment  
As we vibe late at night  
Vibe late at night[Verse 1]

I get fireworks from your smile at your mouth is precious  
I been out of my words but I'll always put you first

And I don't know how  
But I don't need confirmation  
And we can't slow down  
But we've passed all constellation  
So I don't want to think about it  
I should have a drink about it  
I don't want to think about it  
I should have a drink about it  
Have you see the world around you  
When your person's not around me  
So I need a little shiny to give my world a little balance, yeah[Hook]

Peeping your aura  
And baby you know that it's golden  
I just want to see you shine  
Want to see you shine  
Come by my spot after dark  
And just live in the moment  
As we vibe late at night  
Vibe late at night

[Verse 2: MNEK]

Vibe tonight  
You give me this feeling  
Every time  
It's like a revolution is what I'm feeling  
Shining so gold, shi-shining like a diamond  
No-no-nothing will change it, baby this shit ain't climax  
You wanna go slow  
Bu-bu-but that's how I like it

But you know that you love it  
So you done compromising Now strike a pose  
Like you're a designer, [?]  
'Cause you say I'm the illest, well I think you're the baddest  
You're a little lighted-minded  
Now come on, who else you know  
Make the room light up, make the whole place blow  
[?][Hook]  
Peeping your aura  
And baby you know that it's golden  
I just want to see you shine  
Want to see you shine  
Come by my spot after dark  
And just live in the moment  
As we vibe late at night  
Vibe late at night[Verse 3]  
Take off till we both lost  
Take off till your clothes loss  
Take all your emotions  
I'm waving your oceans  
Young hero's [?] think I'll never let you go  
And not even dirt [?] see you grow and...  
Time might just run out  
So let's lose all control[Hook]  
Peeping your aura  
And baby you know that it's golden  
I just want to see you shine  
Want to see you shine  
Come by my spot after dark  
And just live in the moment  
As we vibe late at night  
Vibe late at night
