

# Hear My Song

## Bouke

The same old moon looks new tonight  
The same old stars look twice as bright  
The leaves are green and gentle breezes blow  
    I feel as though my arms are wings  
    You won't believe those crazy things  
I wanna be where lovers love to goHear my song in the old fashioned way  
    Hear my song and I'll love you for ever  
    How I long for your kiss night and day  
    I can't stay alone I'll make you my own  
So please hear my prayI made it certain someone new  
    Can make me feel the way I do  
    My darling I'm so glad you came my way  
    You know I long for your embrace  
    And no one else can take your place  
    I love you so that's what I wanna say  
        Hear my song...
