

# Better Living Through Chemistry

## Queens Of The Stone Age

The blue pill opens your eyes  
Is there a better way?  
A new religion prescribed  
To those without the faith A hero holding a knife  
And blood is not enough  
Is it too late to go back?  
Is it too late to go? There's no one here  
(There's no one here)  
And people everywhere  
(People everywhere)  
You're on your own Let's see if I'm hearing this right  
Is it just that I should take?  
The never-ending supply  
To carry out the dead Your idols burn in the fire  
The mob comes crawling up  
And I'm reclaiming my mind  
Destroying everyone There's no one here  
(There's no one here)  
And people everywhere  
(People everywhere)  
You're all alone
