

In Love

Brooke White

Its like candy land
When you hold my hand
Anywhere you stand
I wanna be next to you Give me one more taste
Of your sweet embrace
Lipstick on your face
After we kiss goodnight And youre mine, all mine
And its fine with me
Wanna take your time
So I can make you see
With me, how happy well be So fly away
Million miles away
And there well stay
In love
In love Just to hear the sound
Of your voice around
Paradise, I found
When you speak my name Wanna stay like this
Wrapped up in your bliss
Never gonna miss a single day
Without the chance to say I love you And as time goes on
And we both grow old
Youll always be my sun
When the world gets cold
Youll always know, youre my only one So here I come for you
Nothing no one can do
To keep me away from you This love has no end
Never gonna save me
til eternity is through
Ill keep on loving you
Forever and ever So lets head away
We can leave today
Lets go find a space
Our own little place
Where we can stay
Where we can stay
In love
In love So lets fly away
Million miles away

And there well stay

In love

In love

In love
