Connected: Chaim

Kell's and Twist' uh
Girl, it ain't no other way to describe you
Your momma raised you right
Yeah, I like that, it's likeSittin' here in love rehab, I'm so crazy about you, dear
Doctor of my soul, I will never check out of here
Filled my prescription when I came to you and needed peace
You took me in and gave me joy and, girl, now I'm free
You are my circle, when I needed to talk you had my back
You my homie we go back, thank you for your love rehabDoin' bad, ain't nobody in my life
I'ma kill a nigga or somebody gon' murder me soon
I'm a hope fiend, I need a woman in my life
Could you take me to the emergency room?I need somebody that can nurse me back to health
'Cause I'm out here lovesick, shakin' like Pookie
You took me up outta the hoopty
Put me in the Lex 300 and got me blowin' on dookieNow why do I respect ya, 'cause she down for a nigga
Before I was rollin' city to city
She got me screamin' out "Yes Sir", like I'm Pretty Ricky
Lookin' freaky, freaky while I'm smokin' on the sticky-ickyWhen I'm down and out, you be rubbin' my back
Because I miss you, you know I got issues
When I'm ridin' dirty and I got the thumper
And the law pull me over you will hold my pistolSick of how the women harm on me, you charmin' me
In the pharmacy of love, body be right I wanna hit you
You like a veteran when I need some medicine
You better than Exederin, fellas in trouble that wanna get youI thought I knew what real love was till I met you
I'm reminiscin' on the love we had
I'ma stay sick forever hope I never get well
'Cause you got me in a love rehabSittin' here in love rehab, I'm so crazy about you, dear
Doctor of my soul, I will never check out of here
Filled my prescription when I came to you and needed peace
You took me in and gave me joy and, girl, now I'm free
You are my circle, when I needed to talk you had my back
You my homie we go back, thank you for your love rehabSo many problems, so many people, so many decisions
So many roads that I have to choose, yeah
But still I'll roll the dice and pray that I don't lose
There were times that I got weak, fell short
I couldn't go on and she came throughSo many friends, so many liars, so many haters
Sometimes I just don't know who to trust
But yet and still I turn the wheel of life and try my luck
There was a time when I was broke, didn't have a job

And this woman, she showed me loveOh, since we first met, I've been risin' like an escalator
Now five years later, we have come up like an elevator
You made me better, babe, when I thought I was goin' crazy
I was just about to lose my mind, then you put me in your love rehabSittin' here in love rehab, I'm so crazy about you, dear
Doctor of my soul, I will never check out of here
Filled my prescription when I came to you and needed peace
You took me in and gave me joy and, girl, now I'm free
You are my circle, when I needed to talk you had my back
You my homie we go back, thank you for your love rehabIf I hit it I'ma spit that love flow
Forget what they all say
She the only one that helped me
Hit her with a little bit of 12 PlayWhen the Twista wasn't proper sippin' Vodka
I could remember tellin' the love Doctor "I need some help"
Through the fire like I'm shocker, love it every time I rock her
Cock a pistol when I think I bleed to deathMy surgeon and my methodome
The only one I talk to when I'm left alone
You the one that helped me fight through my challenges
Tell me what's my psychoanalysisI thought I knew what real love was till I met you
I'm reminiscin' on the love we had
I'ma stay sick forever, hope I never get well
'Cause you got me in a love rehabSittin' here in love rehab, I'm so crazy about you, dear
Doctor of my soul, I will never check out of here
Filled my prescription when I came to you and needed peace
You took me in and gave me joy and, girl, now I'm free
You are my circle, when I needed to talk you had my back
You my homie we go back, thank you for your love rehabUh, Kell's and Twist
Gotta let her know that she the only reason
We make it through sometime
That's why we sittin' here in love rehab
