

People At War

Bush

I'm a stranger to your people
I'm a stranger to your love
I am miles from your systems
I've seen you up above We hurt together
We hurt apart
Peaceful people at war
We're peaceful people at war I'm the refugee of angels
I'm the refugee of war
These lights can be so frightening
When you don't know what's happening We hurt together
We hurt apart
We hurt forever
We hurt so hard Peaceful people at war
We're peaceful people at war
We are lost
Floating nowhere And the storm is closing in
And the cover of top clothing
It's you, me and stars
Every ending is a beginning
Every ending is a start
I am so far from my homeland
So far from your arms Peaceful people at war
We are peaceful people at war
Peaceful, peaceful
We are peaceful, peaceful
