All Around The World

Theophilus London

Bad boy stepped in town
Asked me, "I am worthy now?"
Uh, we're what the people came to see
He came to break it down
Cut the lights, cue the sound
See the bodies hit the ground

Them pretty girls be textin'
They wonder where my stacks at
They call me futuristic
They think I am Mister Jetson
Uh, follow the tour bus
We'll get you to the next show
Unforgetful, dudes still be gettin' low

All around the world everybody singing along
Never looking back, it's a long long way from my home
Ooh just tell the sheriff that the party's going on all night long
We are back making music like it's 1964

Hey back on the road again, hittin' Paris on a tent
Kiss my mom and call my friends
Seems like this tour would never end
These kids is fly these kids got attitude
This is a little something that I had to do
'Cause tired of hearin' your crap
About who need to bring rap back

The girl they snuck back stage like
"Can we get your autograph"
The stupid interviews
Questions make us so all laugh
Who are you to ask?
I am gonna tell my PR I'm gonna pass,
Skip the whiskey, roll a joint
Plus my outfit ?

All around the world everybody singing along
Never looking back, it's a long long way from my home
Ooh just tell the sheriff that the party's going on all night long

We are back making music like it's 1964

[Repeat: x6]
Melbourne, Paris, Tokyo, Berlin
London, Liverpool, Beijing, New York

This feels so good right now
You're now listening to the world renowned international
International player, uh
All around the world, seen all around
Seen many places, many different things
Every night I wake up and go to sleep
Close your eyes and go to dreams
I've seen it all baby

All around the world everybody singing along
Never looking back, it's a long long way from my home
Ooh just tell the sheriff that the party's going on all night long
We are back making music like it's 1964

All around the world everybody singing along
Never looking back, it's a long long way from my home
Ooh just tell the sheriff that the party's going on all night long
We are back making music like it's 1964
