

Together Those Leaves

[Yndi Halda](#)

Two bees with no hives
So wax sticks to their backs
Together they'll fall to the ground To be eaten by the cactus
Your hair grows like cactus
When no-one's around
Your hair grows like cactus Two birds with no wings
Two spiderwebs untie
The tree bark (???)
(???) at night I found two leaves
Whose veins carved with words
Together those leaves said
The truth is fleeting
Love, love.
