

# Unwrite That Song

## Lynyrd Skynyrd

Well, I heard it on the late night radio  
For the umpteenth time  
Headin' from LA to the Florida coast I was in between black coffee and shiftin' gears  
When the second verse took a turn  
And brought me to tears They were talkin' about love, I do and forever  
And how two people ought to stay together  
Well, the music hit me  
But the singer's got it all wrong Unwrite that song  
Unwrite that song  
'Cause what he's sayin' to me  
Don't go with that melody Unsing them lines  
About those happy times  
Don't they know she's gone  
Unwrite that song Well, it was 3 am and she was cryin'  
And her eyes were all red  
When that music video came on  
She sat up in her bed She grabbed that whiskey bottle  
Poured one last shot  
And threw that empty glass  
At the TV and screamed "Unwrite that song  
Unwrite that song  
'Cause what he's sayin' to me  
Don't go with that melody"" Unsing them lines  
About those happy times  
Don't they know he's gone  
Unwrite that song "Well, there was a time that I believed  
All those words were true  
And if I had a pen and paper right now  
I know just what I'd do Unwrite that song  
Unwrite that song  
'Cause what he's sayin' to me  
Don't go with the melody Unsing them lines  
About happy times  
Don't they know he's gone  
Unwrite that song Lord, I know she's gone  
Unwrite that song  
Unwrite our song
