Pandora's Box

Leatherface

So what if they're talking
Making up the excuses for the abuses they perform on you
And as I live your child will be born with his brain on top it's tiny head
And as I breathe they're telling you it's to with being inbredAnd of course it's not plutonium that cause pandamonium
And everything under the sun must be for everyone
Everyone living under a gun must be someone
And everything under the sun must be for someoneAnd everyone living under a gun must be
Don't fuck with Pandora's Box or don't make it so obvious
Do as you would be done by do as you would be don't buy it
Do as you would be done by do as you would be but don't buy itAnd as I live and breathe this great bug fucking thing
Hanging over my head I think
And you talk outspoken forthright political and erudite
Pub politic with all it's drunken hindsight that never achieved anythingAnd everything under the sun must be for everyone
Everyone living under a gun must be
Everything under the sun must be for someone
And everyone living under a gun must beAnd don't fuck with Pandora's Box or don't make it so obvious
Do as you would be done by do as you would be but don't buy it
Do as you would be done by do as you would be but don't buy it
And everything under the sun must be for everyoneEveryone living under a gun must be
Everything under the sun must be for someone
And everyone living under a gun must be
